Date: 15 September 2026

03. Founder & Intellectual Property Assignment Agreement

This Founder & IP Assignment Agreement is made on 15 September 2026 between Crop Saver Innovations Private Limited and Arjun Kulkarni (Founder).

1. Purpose: Founder participates in development of Crop Saver software, AI models, dashboards, documentation, designs and business processes.
2. Assignment: To the extent legally assignable, Founder assigns to the Company transferable rights in Work Product created specifically for the Company, subject to the pre-existing IP schedule.
3. Pre-existing IP: Any pre-existing material must be listed in Schedule A. If none, write NONE after legal review.
4. Confidentiality: Founder shall protect non-public technical, government, customer, security, pricing and personal-data information.
5. Further assurances: Founder shall sign reasonable documents needed to evidence Company ownership.
6. Governing law: Laws of India; jurisdiction/dispute mechanism to be finalised by counsel.

Founder: Arjun Kulkarni

Signature: _____

04. Employee / Consultant Confidentiality & IP Agreement

Parties: Crop Saver Innovations Private Limited and Meera Deshmukh, CTO, dated 15 September 2026.

Confidential information includes Crop Saver source code, credentials, architecture, crop/farmer datasets, government information, security findings and product plans.

Personnel shall use confidential information only for authorised work, apply security controls, report suspected incidents promptly, and not upload confidential information to public repositories or unapproved AI/cloud services.

Work Product created within the scope of engagement and paid for by the Company shall belong to the Company to the extent legally assignable.

On termination, Company information shall be returned/deleted subject to lawful retention and documented backups.

Personnel: Meera Deshmukh

Sample Personnel ID: FOUNDER-ID-SAMPLE-002

Signature: _____

05. Mutual NDA

This NDA is between Crop Saver Innovations Private Limited and Department of Agriculture, Government of Maharashtra, effective 15 September 2026.

Confidential Information includes technical information, datasets, security information, business plans, pilot information and non-public operational information.

Permitted purpose: evaluation, design, conduct and administration of the Crop Saver pilot.

Exclusions: information already lawfully known, public without breach, independently developed without use of confidential information, or lawfully received from a third party.

Government/public-records caveat: information held by a public authority may be subject to applicable transparency, audit, records-retention or disclosure laws.

Security: each party shall apply reasonable safeguards appropriate to the information handled.

Term: 3 years from the effective date, with trade-secret obligations continuing while protected by law.

Government representative: Dr. Snehal Patil — Sample ID GOV-NODAL-SAMPLE-0147

Startup representative: Arjun Kulkarni

Signatures: _____ / _____

06. Government Pilot MoU

MEMORANDUM OF UNDERSTANDING — CS-MOU-2026-001

Between Department of Agriculture, Government of Maharashtra (Mantralaya, Mumbai, Maharashtra 400032) and Crop Saver Innovations Private Limited (Office 204, Krushi Tech Hub, Baner Road, Pune, Maharashtra 411045).

Objective: conduct a limited pilot of Crop Saver AI Crop Risk & Early Warning Platform in Pune and Nashik districts.

Startup scope: platform access, configuration, user onboarding, training, technical support, KPI reporting and pilot documentation.

Government responsibilities: nominate users and a nodal officer, provide lawful access to agreed data/sites, coordinate approvals and provide timely feedback.

Pilot period: 1 October 2026 to 31 March 2027.

NO AUTOMATIC PROCUREMENT: successful pilot completion does not itself create an entitlement to future procurement, exclusivity or purchase. Any subsequent procurement follows the applicable process.

IP: pre-existing Startup IP remains with Startup; government data remains with its lawful owner. Specific licensing/ownership terms must be finalised in the definitive agreement.

Data and security: a separate data-processing/data-sharing schedule applies where personal data or protected government data is processed.

Termination: material breach, security/legal risk or other agreed grounds, with an exit/handover plan.

Government: Dr. Snehal Patil, Sample ID GOV-NODAL-SAMPLE-0147

Startup: Arjun Kulkarni, Sample DIN DIN-SAMPLE-26000123

Date: 15 September 2026

07. Statement of Work — Crop Saver Pilot

SOW No.: CS-SOW-2026-001

Project: Crop Saver AI Crop Risk & Early Warning Platform

Customer: Department of Agriculture, Government of Maharashtra

Pilot location: Pune and Nashik districts

Period: 1 October 2026–31 March 2027

Deliverables: (1) configure platform for 30 government users; (2) onboard 20 sample FPO/field users; (3) ingest agreed weather/soil/crop datasets; (4) generate crop-risk alerts; (5) conduct 4 training sessions; (6) weekly support; (7) baseline, mid-pilot and final impact reports.

Acceptance criteria: core workflows pass UAT; no unresolved critical security issue at go-live; KPI dashboard operational; reports delivered; nodal officer signs acceptance or records written exceptions.

Dependencies: lawful data access, approvals, field connectivity, nominated users and third-party services where applicable.

Change control: material scope, budget, data, security or timeline changes require written approval.

08. Data Processing & Data Sharing Schedule

Purpose: process only the minimum data required to deliver and evaluate the pilot.

Possible data classes: farmer/farm identifiers, crop information, location/field data, weather/soil data, user account data and operational logs. The exact data inventory must be approved before production use.

Access: role-based, least privilege, authentication, logging and timely deprovisioning.

Security: encryption in transit, secure authentication, backups, vulnerability management, incident response and appropriate administrative/technical safeguards.

Sub-processors: only authorised providers bound by equivalent obligations.

Incident response: notify the designated government contact within the contractual incident window after becoming aware of a suspected breach and cooperate with investigation/remediation.

Retention/deletion: return/delete at pilot end according to written instructions and applicable law, with confirmation where requested.

Cross-border/cloud processing: only where permitted by applicable law and contract; do not assume overseas processing is allowed.

Government data contact: Dr. Snehal Patil — Sample ID GOV-NODAL-SAMPLE-0147

Startup privacy contact: legal@cropsaver.example

09. Service Level Agreement

Service: Crop Saver Pilot Platform.

Availability target: 99.5% monthly during pilot, excluding agreed maintenance and force majeure.

Severity 1 critical outage/security incident: acknowledge within 30 minutes; target workaround within 4 hours.

Severity 2 major degradation: acknowledge within 2 hours; target workaround within 1 business day.

Severity 3 normal defect: acknowledge within 1 business day; target resolution within 5 business days or next agreed release.

Planned maintenance: notify at least 48 hours in advance where practicable.

Support: legal@cropsaver.example; phone +91 90000 12345. Escalation: CTO → Project Director → Government Nodal Officer.

Service credits, if any, must be stated in the definitive commercial contract; this template does not create automatic credits.

10. Government Grant / Funding Agreement — Draft

Draft Agreement Ref: CS-GOV-AGR-2026-001

Grantor: Department of Agriculture, Government of Maharashtra

Grantee: Crop Saver Innovations Private Limited

Project: Crop Saver AI Crop Risk & Early Warning Platform

Grant amount: ₹50,00,000

1. Permitted use: approved project costs only, according to the sanctioned budget.
2. Milestones: discovery, MVP, evaluation engine, field pilot, impact evaluation and scale plan.
3. Disbursement: milestone-linked and subject to the official sanction/grant conditions.
4. Records: maintain invoices, payroll, contracts, asset records, bank statements and project evidence for the required retention period.
5. Reporting: technical and financial reports, utilisation statements and outcome metrics.
6. Audit/inspection: provide reasonable access to authorised records subject to law and security.
7. Misuse/refund: governed by the official sanction/grant terms; this draft does not override them.
8. IP: rights must be expressly agreed; government should receive only rights necessary for the approved public purpose unless otherwise specified.
9. Termination/closure: official grant conditions govern refund, unspent balance, assets and closure.
10. This document is a negotiation draft, not proof of a government award.

11. Utilisation Certificate — Sample

Project: Crop Saver AI Crop Risk & Early Warning Platform

Agreement: CS-GOV-AGR-2026-001

Period: 1 October 2026–31 March 2027

Certified that ■[AMOUNT] was received and ■[UTILISED] was utilised for approved purposes, subject to the applicable grant conditions.

Unutilised balance: ■[BALANCE]

Committed but unpaid: ■[AMOUNT]

For Crop Saver Innovations Private Limited: Arjun Kulkarni, Director

Sample DIN: DIN-SAMPLE-26000123

Signature: _____

Date: 15 September 2026

CA/auditor certification: include only if required by the scheme/grant terms.

12. Conflict of Interest Declaration

I, Arjun Kulkarni, Director of Crop Saver Innovations Private Limited, declare that, to the best of my knowledge, neither I nor the Company has an undisclosed interest that would improperly influence the evaluation, funding, pilot or procurement decision relating to Crop Saver AI Crop Risk & Early Warning Platform.

We will disclose any actual, potential or perceived conflict and follow the authority's mitigation directions.

We will not offer, promise, provide or authorise any improper payment, gift, benefit or advantage to influence an official decision.

Sample ID: FOUNDER-ID-SAMPLE-001

Signature: _____

Date: 15 September 2026

13. Anti-Bribery & Integrity Undertaking

Crop Saver Innovations Private Limited undertakes to conduct Crop Saver AI Crop Risk & Early Warning Platform with integrity and comply with applicable anti-corruption, procurement and public-sector ethics requirements.

The Company will not directly or indirectly offer, pay, solicit or accept an improper advantage to influence an official action, evaluation, procurement decision, certification, payment or inspection.

The Company will maintain reasonable books and records and cooperate with lawful investigations.

This undertaking does not replace any integrity pact, procurement declaration or statutory requirement in the applicable RFP.

14. Non-Blacklisting / Eligibility Declaration

We, Crop Saver Innovations Private Limited, declare that, as of 15 September 2026, the Company is not blacklisted/debarred by the relevant authority, except as specifically disclosed in Schedule A, and that application statements are true to the best of our knowledge.

We will notify the authority if any material eligibility change occurs before award or during the project.

IMPORTANT: This is a sample declaration. The actual tender/scheme wording must be used where prescribed.

15. Security Incident Notification Form

Incident ID: CS-INC-SAMPLE-2026-0042

Project: Crop Saver AI Crop Risk & Early Warning Platform

Detected: 22 November 2026, 10:15 IST

Detected by: Security Operations — Sample ID SEC-017

Classification: High (sample)

Data potentially involved: user account and operational data; exact scope under investigation.

Immediate actions: revoke affected credentials; isolate affected service; preserve logs; assess scope; notify authorised government contact according to contract.

Government notification time: [TO BE COMPLETED]

Root cause: [TO BE COMPLETED]

Corrective action: [TO BE COMPLETED]

Closure date: [TO BE COMPLETED]

All incident details here are fictional examples.

16. Pilot Acceptance Certificate

Government Partner: Department of Agriculture, Government of Maharashtra

Startup: Crop Saver Innovations Private Limited

SOW: CS-SOW-2026-001

Pilot scope: Crop Saver crop-risk and early-warning platform for the agreed pilot locations.

Acceptance status: [Accepted / Accepted with observations / Not accepted].

Sample KPI results: time to generate risk report — target <15 minutes, sample result 9 minutes; alert delivery success — target 95%, sample result 97%; user satisfaction — target 4/5, sample result 4.3/5.

Open observations: [NONE / LIST].

Acceptance records pilot delivery only and does not create an automatic right to future procurement.

17. Exit / Handover Certificate

Project: Crop Saver AI Crop Risk & Early Warning Platform

Exit date: 31 March 2027

Checklist: user accounts disabled/returned; government data returned/deleted as instructed; credentials rotated; devices returned; documentation delivered; open tickets listed; backups handled under retention schedule; transition assistance completed.

Outstanding items: [LIST]

Data return/deletion confirmation: [REFERENCE]

Asset return: [REFERENCE]

Final financial closure: [REFERENCE]

Government: Dr. Snehal Patil / Sample ID GOV-NODAL-SAMPLE-0147

Startup: Arjun Kulkarni

Signatures: _____ / _____

18. Website / App Terms of Use — Starter

These Terms govern authorised use of the Crop Saver platform.

Users must use the service lawfully and only for authorised purposes, protect credentials, not bypass security, not upload data they are not authorised to share, and report suspected security incidents.

Nothing transfers ownership of Startup IP, government data or third-party IP.

Availability, support, liability and government-specific obligations are governed by the applicable customer agreement/SLA.

Privacy is governed by the applicable privacy notice and data-processing terms.

19. Privacy Notice — Starter

Crop Saver Innovations Private Limited may process personal data to provide Crop Saver, create accounts, authenticate users, provide support, maintain security, measure performance and comply with legal obligations.

We aim to collect only information reasonably necessary for stated purposes and apply appropriate safeguards.

Where we process personal data on behalf of a government/customer entity, processing is governed by the entity's instructions, contract and applicable law.

Service providers may be used for hosting, communications, security or support subject to contractual controls.

Privacy contact: legal@cropsaver.example. This notice must be reviewed against the actual data flows, retention periods, user categories and applicable law before publication.

20. Government Procurement / Bid Checklist

Check the exact RFP/tender: eligibility, turnover, experience, startup exemptions, registration, mandatory forms, EMD/performance security and technical criteria.

Sample bidder details: Crop Saver Innovations Private Limited; CIN U00000MH2026PTC999999; PAN AAACC1234F; GSTIN 27AAACC1234F1Z5; DPIIT ID DPIIT-STARTUP-SAMPLE-2026-000123.

Prepare: bid form; technical proposal; commercial proposal; board authorisation; declarations; bank proof; past-performance evidence; partner/OEM authorisations if applicable; security/compliance documents; implementation team.

For Crop Saver, include: architecture, data-flow diagram, security controls, VAPT plan/report if available, disaster recovery, uptime SLA, support model, data ownership, exit/handover plan and pilot KPI evidence.

Never submit fictional identifiers, certificates, prior deployments, approvals or government references as genuine. Replace every SAMPLE value with verified evidence before submission.
