

WATERMANAGER

Government Funding & Legal Document Pack — SAMPLE

WaterManager Technologies Private Limited

Government-facing wastewater monitoring, treatment-performance and reuse-management platform.

IMPORTANT: This pack contains fictional dummy data and draft templates for planning/demo purposes. It is not evidence of incorporation, registration, funding approval, tender eligibility, environmental compliance, or a binding contract.

Prepared: 01 September 2026

1. Company & Due-Diligence Profile

Field	Dummy value
Legal name	WaterManager Technologies Private Limited
Brand	WaterManager
CIN	U62010MH2025PTC123456 (DUMMY)
PAN	DUMMY-PAN-WM001
GSTIN	27DUMMYWM001Z5
DPIIT	DPIIT-WM-2026-000781
Udyam	UDYAM-MH-00-00-1234567
BHASKAR	BHASKAR-WM-000912
Registered office	Plot 14, Innovation Park, Pune, Maharashtra 411045 (DUMMY)
Founder / Director	Aarav Mehta (DUMMY)
Second Director	Riya Kulkarni (DUMMY)
Bank	Example National Bank, Pune Tech Branch (DUMMY)
Account	000000123456
IFSC	EXNB0000001

2. Government Funding / Pilot Proposal Summary

Project title: **WaterManager Maharashtra Urban Wastewater Intelligence & Reuse Pilot**

Requested government support: **■48,00,000 (dummy)**

Company co-contribution: **■12,00,000 (dummy)**

Total pilot value: **■60,00,000 (dummy)**

Pilot duration: **24 weeks**

Illustrative scope: 5 STPs, 40 MLD combined monitored flow, reuse-demand mapping, dashboards, alerts, forecasting and impact evaluation.

Objectives

- Create a unified digital view of participating STPs and wastewater flows.

- Improve visibility of treatment performance and operational alerts.
- Identify suitable non-potable reuse opportunities for treated wastewater.
- Quantify reuse, freshwater substitution and operational improvements.
- Create a scalable evidence package for expansion to additional ULBs.

Funding utilisation

- ■9.0 lakh — IoT sensors and gateways
- ■6.0 lakh — cloud/software
- ■5.0 lakh — GIS and analytics
- ■5.0 lakh — AI/prediction engine
- ■7.0 lakh — pilot integration
- ■5.0 lakh — field installation/calibration
- ■2.5 lakh — cybersecurity/audit
- ■5.5 lakh — project staff
- ■1.5 lakh — training/documentation
- ■1.5 lakh — contingency

3. Draft Mutual Non-Disclosure Agreement (NDA)

Document ID: WM-NDA-001 | **Effective Date:** 01 September 2026

This Mutual Non-Disclosure Agreement is a planning draft between WaterManager Technologies Private Limited ("WaterManager") and the counterparty identified in the final executed version ("Counterparty").

1. **1. Purpose.** The parties may exchange information to evaluate a wastewater technology pilot, funding proposal, procurement, integration or related collaboration.
2. **2. Confidential Information.** Confidential Information includes non-public technical, commercial, operational, financial, security and project information disclosed in written, electronic, visual or oral form and identified as confidential or reasonably understood to be confidential.
3. **3. Use Restriction.** Each party shall use Confidential Information only for the Purpose and shall restrict access to personnel and advisors who need it and are bound by confidentiality obligations.
4. **4. Exclusions.** Information independently developed, already lawfully known, publicly available without breach, or lawfully received from a third party without confidentiality restriction is excluded.
5. **5. Security.** Each party shall apply reasonable administrative, technical and organisational safeguards appropriate to the information handled.
6. **6. Return/Deletion.** Upon written request, each party shall return or securely delete Confidential Information subject to lawful retention obligations.
7. **7. No Licence.** Disclosure does not transfer ownership or grant an intellectual-property licence except as expressly agreed in writing.
8. **8. Term.** Confidentiality obligations shall survive for three years from disclosure, or longer where required by applicable law or a final contract.
9. **9. Governing Law.** The final executed agreement should specify applicable Indian law and the agreed dispute-resolution forum.

4. Draft Government Pilot MoU

Document ID: WM-MOU-001 | **Draft Date:** 01 September 2026

This Memorandum of Understanding ("MoU") is a non-final template for discussion between **WaterManager Technologies Private Limited** and a participating Government Department / Urban Local Body ("Department").

Scope

- Deploy WaterManager at agreed wastewater assets.
- Integrate available flow, STP and operational data subject to technical feasibility and permissions.
- Provide dashboards, alerts, analytics, GIS reuse mapping and pilot reports.
- Train nominated Department personnel.
- Conduct a joint baseline and final impact assessment.

Roles

- **Department:** nominate a nodal officer; facilitate site access and authorised data access; validate baseline and acceptance criteria; coordinate with asset operators.
- **WaterManager:** deploy and maintain the agreed platform; provide training and support; protect confidential information; submit periodic performance reports.
- **Both parties:** define data ownership, security, service levels, payment, audit rights and environmental responsibilities in the final agreement.

Illustrative acceptance KPIs

- ≥95% platform data availability during the agreed measurement period.
- ≥90% of defined alerts acknowledged within the agreed service window.
- 100% of agreed pilot assets mapped and visible on the dashboard.
- Verified measurement of treated-water reuse and freshwater substitution where data is available.

Commercial terms

Illustrative pilot value: ■60,00,000. Government support: ■48,00,000. Company contribution: ■12,00,000. Final payment structure, taxes, milestones, security deposit, performance guarantee and procurement terms must be set by the competent authority and final contract.

Intellectual property

Pre-existing WaterManager software, models, documentation and know-how remain with WaterManager unless a final agreement states otherwise. Government-provided data remains subject to the Department's rights and applicable law. Any newly created deliverables and data rights should be expressly defined in the final contract.

5. Draft Data Processing & Security Schedule

Document ID: WM-DPA-001 | **Draft Date:** 01 September 2026

This schedule is intended for use where WaterManager processes data on behalf of a Government Department/ULB. It must be adapted to the actual data flows and applicable law.

Data categories

- Operational STP telemetry and sensor data.
- Infrastructure metadata and geospatial information.
- User/account details for authorised government users.
- Support tickets and audit logs.
- No personal data should be collected unless necessary for an approved purpose.

Security controls

- Role-based access control and least-privilege permissions.
- Encryption in transit and at rest where technically appropriate.
- Multi-factor authentication for privileged users.
- Audit logging for administrative and sensitive actions.
- Backups, disaster recovery and incident response procedures.
- Vulnerability management and periodic security testing.

Data incident

The parties should agree a written incident-notification process, including contact points, severity classification, containment, evidence preservation, remediation and legally required notifications.

Privacy compliance

Where personal data is processed, the final agreement should allocate the roles and obligations required under applicable Indian data-protection law and rules. The Government of India has published the Digital Personal Data Protection Rules, 2025; applicability, commencement and exact obligations should be checked at contract time.

6. Draft No-Blacklisting & Conflict-of-Interest Declaration

Document ID: WM-DECL-001 | **Date:** 01 September 2026

I, **Aarav Mehta (DUMMY)**, Director of WaterManager Technologies Private Limited, hereby declare for this sample document that, to the best of the company's knowledge, the company is not blacklisted or debarred by any Government authority as of the date of the declaration. This statement is fictional and must be replaced by a truthful, verified declaration before submission.

The company further declares that it has disclosed any actual conflict of interest known to it in relation to the specific funding/procurement process and will comply with the applicable tender/funding rules.

7. Draft Intellectual Property Ownership Declaration

Document ID: WM-IP-001 | **Date:** 01 September 2026

WaterManager Technologies Private Limited declares, for this sample, that the WaterManager software platform, source code, dashboards, documentation and proprietary analytics developed by the company are owned or validly licensed by the company. The company will provide supporting agreements/assignments where required.

Third-party open-source and licensed components will be tracked through an internal software bill of materials and used according to their applicable licences.

8. Draft Funding Utilisation Undertaking

Document ID: WM-FUND-001 | **Date:** 01 September 2026

WaterManager Technologies Private Limited undertakes, in this sample template, that any public funding received for the WaterManager pilot will be used only for approved project purposes, maintained in appropriate accounting records, supported by invoices/records, and reported according to the funding authority's terms.

Illustrative funding amount: ■48,00,000. Illustrative project period: 24 weeks. Any unspent balance, reallocation, procurement rule, audit requirement, interest treatment or refund obligation shall be governed by the final sanction letter/agreement.

9. Founder / Board Authorisation

Document ID: WM-AUTH-001 | **Date:** 01 September 2026

Resolved that **Aarav Mehta (DUMMY)**, Director / Authorised Signatory of WaterManager Technologies Private Limited, is authorised, subject to applicable corporate approvals, to submit proposals, participate in pilot discussions, execute non-binding application documents and sign final agreements only where duly approved by the competent authority/board.

This sample resolution is not a substitute for a properly passed and recorded board/shareholder resolution where one is legally or contractually required.

10. Government Due-Diligence Checklist

- Certificate of Incorporation and constitutional documents.
- PAN, GST and applicable tax registrations.
- DPIIT recognition and Udyam registration where applicable.
- Founder/director KYC and authorised-signatory evidence.
- Bank details and proof of account.
- Financial statements, tax returns and bank statements as requested.
- Technical proposal, architecture, security controls and implementation plan.
- Pilot plan, milestones, KPIs and acceptance methodology.
- Budget, cash-flow requirement and funding-utilisation plan.
- IP ownership and third-party licence information.
- No-blacklisting, conflict-of-interest and integrity declarations.
- NDA, pilot MoU, data/security schedule and final contract.
- Applicable environmental, technical, labour, insurance and sector-specific registrations.
- Procurement-channel registration / tender documents where applicable.

DPIIT's current Startup India guidance states that eligible startups can be incorporated as a private limited company, registered partnership, LLP or cooperative society, and the current recognition threshold is ₹200 crore turnover (₹300 crore for DeepTech), subject to the other criteria. ■cite■turn0search0■turn0search3■

Startup India application materials can include incorporation/registration proof, PAN, founder details, a pitch deck and applicable registrations; exact requirements vary by scheme. ■cite■turn0search8■turn0search12■

This pack deliberately uses dummy identifiers and figures. Replace every placeholder with verified information and have counsel review the final documents before submission.
